# Tomasz Kosowski

## ABOUT

From mechanical engineer to data scientist, I am passionate about applying my analytical skills, meticulous approach and insatiable curiosity in the vast domain of big data and AI.

## TECHNICAL SKILLS

**Generative AI (AI Foundry, Copilot Studio, RAG)**

- ✓ Designing and implementing LLM solutions using Azure AI services with MCP-based knowledge access.
- ✓ Building RAG copilots integrated with Power Apps, web apps, Outlook, Teams, and WhatsApp.

**Cloud solutions (Azure)**

- ✓ Developing and deploying AI/ML solutions using Azure Machine Learning, Cognitive Services, Azure Functions, Container Apps, and Application Insights.
- ✓ Managing infrastructure and deployments with Terraform.

**Python**

- ✓ Developing ML and AI solutions using Pandas, NumPy, Matplotlib, Scikit-learn, Keras/TensorFlow, and experiment tracking with MLflow.
- ✓ Data cleaning, analysis, feature engineering, model development, and evaluation based on statistics and core machine learning methods.

**SQL (MS SQL, MySQL)**

- ✓ Querying and structuring data to support AI systems and knowledge retrieval through custom MCP implementations.

**Power BI (DAX, M Code)**

- ✓ Backend data modeling and development of interactive dashboards and KPI reports using optimized DAX measures.

**MS Excel (Power Query, Power Pivot and VBA)**

- ✓ Expert reporting and automation of data workflows.

## LANGUAGES

English – fluent

German – intermediate

Ukrainian – beginner

## WORK EXPERIENCE

Data Science Engineer — 2025 – current

**SMART business**

- Development and implementation of Generative AI products, including AI agents and agent-based systems.
- Participation in the development of large-scale Machine Learning products, including building, testing, and validating predictive models.
- Delivering client presentations, technical demos, and webinars on AI and data science topics.
- Providing technical consulting to clients by translating business needs into scalable AI solutions.

Junior Data Science Engineer — 2024 – 2025

**SMART business**

- Developing ML-based and generative AI products.
- Building, testing, and validating predictive models.
- Contributing to data science workflows, tools, and team practices.

Procurement Analytics Intern — 2023 – 2024

**BD**

- Building Power BI dashboards and automating reporting processes to support KPI monitoring and data-driven decisions.
- Developing ETL pipelines and data workflows for analytics projects.

Sales Engineer — 2018 – 2020

**Leszczyńska Fabryka Pomp**

- Delivering tailored technical solutions based on client requirements.

## CERTIFICATES

- Azure: DP100, AI102, AI900
- Google: Data Analytics Professional

## EDUCATION

Master of Engineering — 2017 – 2018

**Wroclaw University of Science and Technology**

- Faculty of Mechanical and Power Engineering
- Degree completed achieving a maximum grade of 5.0

## INTERESTS

- AI Technology
- Weight lifting
- Guitar and keyboard playing
- Strategic and puzzle games
- Philosophy
- Hiking
